

# Battery Dimensions

Slimline Batteries: 20-22AH

## Smaller (Slimline) Batteries - 20-22AH

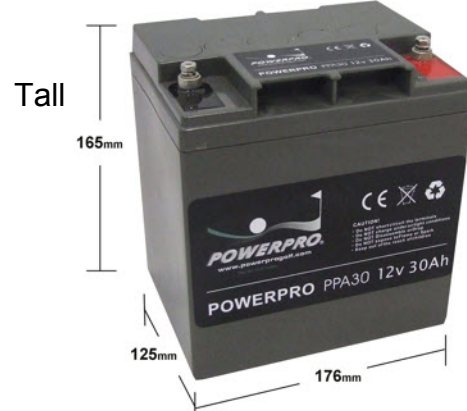

These batteries have the same dimensions:

181mm wide x 167mm high x 77mm deep

All batteries are fully sealed and can be used on their side or on their back if necessary.

Medium Batteries - 24-30AH - Orientation 1

## Medium Batteries - 24-30AH

These batteries have the same dimensions but have 2 orientations, either a 'tall' format or a 'squat' format:

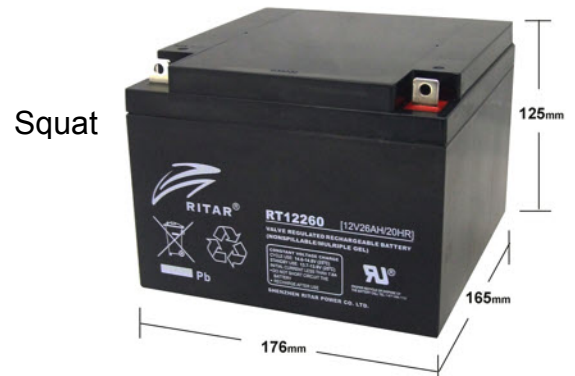

176mm wide x 165mm high x 125mm deep  
or

176mm wide x 125mm high x 165mm deep

Both orientations are interchangeable.

All batteries are fully sealed and can be used on their side or on their back if necessary.

Medium Batteries - 24-30AH - Orientation 2

## Larger Batteries - 33-36AH

These batteries have the same dimensions:

195mm wide x 167mm high x 127mm deep

All batteries are fully sealed and can be used on their side or on their back if necessary.

Dimensions - Large Batteries - 36AH

**Batteries should never be used 'upside-down' as this may prevent proper venting.**
